CONSERVATION DISTRICT**  
**WARREN COUNTY OFFICE OF EMERGENCY SERVICES**

**Date:** September 24, 2015

**To:** Town and County Supervisors, Glens Falls Mayor, Village of Lake George Mayor

**From:** Jim Lieberum, Amy Hirsch

**Re:** Hazard Mitigation Surveys for Public Participation

Good Afternoon,

This letter is intended to provide you with information pertaining to the Warren County Hazard Mitigation Plan update. So far the process has been going along very well thanks to the effort and the support from the communities. We are currently on track to wrap up the plan in 2016.

At this time there are nine different on-line surveys that are available for public outreach and education. They run the gamut from general citizenry to emergency responders to business and more. These surveys provide an opportunity to provide information that will assist with the development of the Hazard Mitigation Plan.

The surveys are currently available at the following websites:

- Warren County Office of Emergency Services:  
<http://www.warrencountyny.gov/emergency/management.php>
- Warren County Soil and Water Conservation District: [www.warrenswcd.org](http://www.warrenswcd.org)

As your community is a participant in this plan, we are asking if you would place the accompanying survey announcement and the surveys themselves at your website and municipal building or link to one of the websites above and make them known to your citizenry. This portion of data collection is extremely important as it provides the public an opportunity to have their issues and concerns heard.

If you have questions, please feel free to contact myself or Amy Hirsch.
