GGFT – COVID-19 Precautions

GGFT provides essential transportation to many residents of the Glens Falls urbanized area who rely on it to get to work, grocery stores and other essential travel. Because of this at this time, GGFT, like other transit systems around the country, is continuing to operate regular schedules. However, the safety of our passengers and our employees with the presence of COVID-19 in our area is something that we take very seriously.

Steps that GGFT is taking to help mitigate the risk of spreading sickness include:

- All GGFT bus interiors are cleaned and sprayed with a disinfectant every day.
- Vents have been opened on-board buses to improve the movement of air through and out of the passenger compartment.

Passengers are asked to follow CDC recommendations by:

- Staying home when you don't feel well and avoid contact with others, especially if you have a cough, fever or are short of breath.
- Covering any coughs or sneezes with a tissue and then properly disposing of the tissue.
- Washing hands often with soap for at least 20 seconds
- Avoiding touching your eyes, nose or mouth unless your hands have recently been washed.
- Maintain distancing from other passengers as much as possible by leaving seating space open and spreading out through the cabin

GGFT will continue to monitor this situation and make additional changes as necessary. Check our website at www.gftransit.org for updates or call our office at 518-792-1085.
