## WELCOME TO THE TOWN OF QUEENSBURY!

The Town of Queensbury and local laws support the NYS Uniform Fire Prevention and Building Codes' requirements to conduct fire inspections in **all places of business** on a regular basis; places of public assembly are inspected at least once every 12 months and all other business are inspected at least every 3 years. The purpose of these inspections is to provide a safe environment for customers, employees and emergency service responders.

Besides being legally required, these inspections, continuous public education and dedicated emergency service volunteers allow the Town of Queensbury a low rate of fire incidents and property loss. Ultimately, this all means that your investment in your business, your employees and their jobs helps to preserve the tax base in the community.

Routine fire inspections for a small business may take less than 30 minutes, larger business may require a full day and even larger locations like a school campus or amusement park may take several days. It is not required but **highly encouraged** for the business owner to participate in the inspection process; this gives a perfect opportunity to develop a good working relationship between the business owner and the Town of Queensbury's Fire Marshal.

Please keep in mind that not all inspections are successful on the first visit. Also, **this inspection process does not guarantee a Certificate of Occupancy.**

As your communication and relationship with the Town of Queensbury's Fire Marshals continues, the fire inspections will become effortless because you will have maintained your premises up to standard and in compliance.

Sincerely,

Mike Palmer  
Fire Marshal
