**\*Applicant is required to engage an engineer for design and testing of the system. The Town Engineer's responsibility is to witness system testing only.**

**PLOT PLAN:** plot plan, to scale, must be submitted with application.

**PLEASE READ BEFORE SIGNING:**

In carrying out the provisions of Article IV, the Local Board of Health or the enforcement office may engage the services of a qualified professional consultant for expert review and recommendation arising from the carrying out of the provisions of Art. IV, including, but not limited to, the review of plans, specifications and reports, attendance at inspections, dye tests, deep hole test pits, septic related deep hole and percolation tests, system installations and any other aspect of any matter contained in this Art. IV, and any costs incurred in such review shall be paid to the Town by the owner of the property before any approval can be granted under this Art. IV shall become effective within 30 days of presentment of an invoice for same, whichever is sooner. Such costs shall not exceed \$1500 without proper written notice to the party to be changed the same.

My signature below indicates I have thoroughly read and understand the instructions, agree to the submission requirements and have completed the application. I also fully understand that additional engineering fees may be necessary per Town of Queensbury Local Law 136-14 D.
